RIDING GEAR SAFETY RULES AND RECOMMENDATIONS

When you're the driver of a personal watercraft, you need to take the safety of your passengers and yours personally.

1. You and your passengers are required to wear an approved personal flotation device (PFD) certified for use with a personal watercraft.
2. Wearing a wetsuit and/or neoprene bottoms will provide adequate protection to the lower part of the body. You can suffer severe internal injuries if water is forced into a lower body cavity as a result of falling in the water or being near the jet thrust nozzle. Normal swimwear cannot appropriately protect against forceful water entry.
3. Finally, extra protective equipment such as footwear, gloves and goggles is also recommended.

You can find all of these items at an authorized Sea-Doo dealer

SIZING CHART

Size up for the perfect ride.

BE SURE TO MEASURE YOURSELF TO FIND THE RIGHT SIZE.

HOW TO MEASURE
For best results, have someone else take measurements. Measure body in swimsuit or undergarments. Tape must be snug but not tight. If measurements fall between two sizes, order the larger size.

HEIGHT
Stand with back straight, without shoes; measure from the top of the head to the floor.

CHEST
Measure under your arms, around the fullest part of your chest.

WAIST
Measure around your natural waistline, keeping one finger between the tape and body.

HIPS
Stand with legs together, measure around the fullest part of your hips, ensuring the tape is level.

ARM LENGTH
Let your arm hang down on the side in a slightly bent position. Measure from the center of the back of your neck, along the length of your arm, to the wrist.

INSEAM
Without shoes, from crotch to the floor.

SEA-DOO SPARK ACCESSORIES

For other Sea-Doo models, see p. 38.

The most customizable watercraft on the market lets your true colors shine, with fully integrated accessories that are all about personality – yours.

HANDLEBAR WITH ADJUSTABLE RISER

- The one-of-a-kind handlebar with adjustable riser gives you more leverage to easily maneuver the Sea-Doo SPARK and customize your experience to your personal riding style.
- Quickly adjust steering to a variety of heights - use the lower position for cruising/sit-down riding, or extend to maximum height in seconds for stand-up riding.
- Adjustable length of 1.625" to 4" (42.5 mm to 103.5 mm).
- Just flip the lever to make the adjustment, no tool required.

Installation required:

Sea-Doo SPARK without iBR*™ (2016 and prior): 278003491, 295100702

Sea-Doo SPARK without iBR (2017): 278003491

Sea-Doo SPARK with iBR (2016 and prior): 278003490, 295100702

STEP WEDGES

- Provide more stability and confidence in different tail stand riding positions.
- Rear footrest with a 45-degree slope to enable you to stand upright on your watercraft when performing tail stands and ultimately expand your range of possibilities by making it easier to pull off even more tricks.

Sea-Doo SPARK

295100705

EXTENDED RANGE VARIABLE TRIM SYSTEM (VTS)

- This Sea-Doo exclusive accessory lets you exaggerate how high you can raise the nose or how deep you can bury it in the water.
- The extended range VTS doubles the range of adjustment compared to our current standard VTS.
- Adjustments are instantaneous thanks to the quick activation switch mounted on the handlebar to allow fine tuning of the watercraft trim angle while riding.
- Simple plug-in connection, and includes switch, cap and hardware necessary for installation.

A new way to play

Handlebar with Adjustable Riser

Step Wedges

The higher tow point makes it easier for wakeboarders and skaters to jump and get air. Equipped for stowing your board when not in use, and with a special latch to hang the ski rope between rides.

TOW PRO

- Three accessories in one – a tow pylon, spotter handle and equipment rack.
- Add more fun to pulling wakeboarders, wakeskaters and tubers thanks to higher tow point.
- Give the spotter more confidence with ergonomic grab handles.
- Carry your board out to clear water.
- Includes a strap for conveniently stowing your tow rope.

REBOARDING STEP

- Convenient step with knee-friendly surface.
- Installs easily on the right side of a Sea-Doo SPARK watercraft and can hold up to 250 lb (113 kg).
- The Reboarding Step easily mounts on the transom and can be installed by any authorized Sea-Doo dealer in minutes.

Sea-Doo SPARK
295100642

The Reboarding Step makes it easy to reboard from deep water after taking a swim or following a wake session.

VARIABLE TRIM SYSTEM (VTS)

- Adjustments are instantaneous thanks to the quick activation switch mounted on the handlebar to allow fine tuning of the watercraft trim angle while riding.
- Simple plug-in connection, and includes switch, cap and hardware necessary for installation.

Sea-Doo SPARK with iBR
295100630

The Variable Trim System provides preset positions for quick settings when adjusting boat trim. When you trim up, you'll have a drier ride, which helps when towing. When you trim down, you can ride more aggressively while staying glued to the water.

CARGO NET

- With a 4L (1.05 US gallon) capacity, this cargo net keeps regularly used items in place.
- The mesh material allows water to drain out easily and air to circulate, perfect to stow your Snap-in Fenders, tow ropes or diving mask.
- An elastic cord allows you quick access, while keeping your items secured.

Sea-Doo SPARK
295100559

SEA-DOO SPEED TIE

- Fully-integrated watercraft mooring system, providing the ultimate in convenient, quick and secure docking.
- Snap-out plates front and rear on Sea-Doo SPARK models allow easy installation and positioning of the Sea-Doo Speed Tie system.
- Stores 7' (2.1 m) of rope and locks to desired length.
- Sold in pairs.

Sea-Doo SPARK
295100496

The Sea-Doo Speed Tie makes docking easier than ever with seven feet of retractable dock lines at the helm and on the transom that effortlessly stow out of sight. The Speed Tie system frees up storage space and ensures you have a dock line at all times.

SNAP-IN FENDERS

- Protect your investment from dock damage with these easy to install and remove fenders designed specifically for Sea-Doo watercraft.
- Pre-molded holes front and rear on the Sea-Doo SPARK models ensure a solid mount in the optimal spot.
- The Snap-in Fenders float and the high visibility orange color keeps them in sight.
- Requires Snap-in Fenders Installation Kit (295100550) to install on models other than Sea-Doo SPARK.
- Sold in pairs.
- Patent pending.

RF D.E.S.S.™ KEY

- Anti-theft technology for the marine world.
- Digitally Encoded Security System (D.E.S.S.) Key's ball-and-socket design provides riders with easy and quick starts every time.
- A radio frequency chip inside the key communicates with the vehicle wirelessly, so your Sea-Doo SPARK starts only when the key code matches the vehicle, for ultimate peace of mind.
- Unlike previous D.E.S.S. keys, harness now sold separately.
- Requires Wiring Harness to install on SPARK without iBR (278003491), SPARK with iBR (278003490) and SPARK TRIXX (278003195 and 278003490).

BRP REBUILD CENTER

BRP has a Rebuild Center for watercraft engines, short blocks, cylinders and crankshafts. Available from your dealer, rebuilt parts come with a one year warranty and save you significant money.

Experienced BRP technicians use only new, original Rotax parts — there's no cutting corners and reusing parts that "look good." For instance, when rebuilding a crankshaft, ALL bearings, rods, pins and seals are replaced, regardless of condition.

Rebuilt long blocks get new pistons, rings, gaskets, crankshaft bearings, valves and seals - all replaced with new genuine Rotax parts.

The BRP Rebuild Center has been providing this service to dealers and consumers for more than 30 years.

SACRIFICIAL ANODES

- Sacrificial anodes are specifically designed to protect parts of your personal watercraft that are underwater from galvanic corrosion.
- Like the name implies, they essentially "sacrifice" themselves by absorbing the electrochemical process of corrosion to prevent metal components like the impeller, jet pump nozzle or engine from being "eaten away" instead. Galvanic corrosion can cause major damage if not controlled. Inspect your sacrificial anode at least once a month.
- Replace it when it is 50% depleted.

USING THE RIGHT OIL MATTERS

The right oil delivers:

THE BEST PERFORMANCE, THE BEST RELIABILITY THE LONGEST LIFE

It's a balancing act to deliver all three attributes – and only XPS, with its custom blend formulations and carefully matched additives, is specifically designed to do just that in a Rotax engine.

DOES ONE OIL FIT ALL?

Our efficient, high-output engines place strong demands on engine oil. At BRP, we treat oil like an actual mechanical part that is developed concurrently with our latest high-performance engine technology.

XPS 4-STROKE OILS

FACT: XPS 4-stroke oils are BRP engineer-certified for unmatched lubrication, the right characteristics for high-performance Sea-Doo superchargers, the right viscosities to best protect our engines from startup to operating temperatures, and they all have extra corrosion additives to better protect your engine intervals from moisture.

WHY CHOOSE XPS 4-STROKE ENGINE OILS INSTEAD OF LOWER-COST ALTERNATIVES?

BRP engineers and experts like Mischa Zimmerman have proven repeatedly that other brands of oil don't meet the high standards BRP desires for engines like the Rotax 1630 ACE engine.

- Each vehicle manufacturer establishes their own lubrication standards and test criteria to validate OEM oil – this means XPS achieves a much higher standard.
- Even oil that is more expensive than XPS will not have the same custom-matched performance for Rotax marine engines.
- Our oil is tested on the whole lineup of vehicles and engines we manufacture — not just one or two models. Our specific testing includes real world miles to ensure XPS meets our performance requirements as opposed to relying only on generalized, minimum specifications that most aftermarket oil brands use.

AREN'T THERE OTHER HIGH QUALITY OILS ON THE MARKET?

Yes. But no other oil is designed as an actual mechanical part during engine development like XPS. Your satisfaction matters.

XPS ENGINE OILS AND MAINTENANCE PRODUCTS

The XPS brand has a complete family of performance products to expertly protect, enhance and extend the life of your BRP vehicle.

MORE THAN JUST OIL.

XPS OILS AND ROTAX ENGINES. CREATED, DEVELOPED, AND CONSTANTLY EVOLVING TOGETHER TO WORK BEST TOGETHER.

It's all about reaching optimum performance and protection, ensuring XPS oils have no equals when used in Rotax engines, and Rotax engines have no equals when they use XPS oils.

QUALITY, INNOVATION, RELIABILITY AND PERFORMANCE GO INTO EVERY BRP VEHICLE AND INTO EVERY DROP OF XPS OIL.

BRP performance requirements exceed oil certification standards, so we set our own: Testing, and retesting our oils in every Rotax engine type under a wide range of rigorous operating conditions to make sure they work the best under all conditions.

XPS IS THE ONLY OIL SPECIFICALLY ENGINEERED FOR ROTAX ENGINES.

BRP's Rotax engines are the perfect embodiment of power and technology, and only highly specialized, specially engineered XPS oils can ensure they always operate at their maximum efficiency and potential.

XPS OILS & ROTAX ENGINES. PARTNERS IN PERFORMANCE.

Products in this catalog will be available for purchase at your authorized Sea-Doo dealer and online at store.sea-doo.com starting January 2017. For advertising purposes, some scenes depicted in this catalog include professional riders and operators executing under ideal and/or controlled conditions. Do not attempt any of these or any other risky maneuvers if they're beyond your level of riding ability, as well as your understanding and respect for the performance of your Sea-Doo watercraft. RIDE SMART FROM THE START. Always ride responsibly and safely. Follow all instructional and safety materials. BRP recommends a minimum operator age of 16 years old for riding a watercraft. Always wear appropriate protective clothing for your type of boating use, including a Coast Guard approved personal flotation device. Always remember that riding and alcohol/drugs don't mix. Operate your watercraft keeping a safe distance between yourself and others. Always observe applicable local laws and regulations.
